

Southern Maine Aviation, LLC is hiring enthusiastic part time flight instructors to join our growing flight department for weekend coverage and some weekdays if possible.

Duties and responsibilities include providing high-quality customer service and professional flight and ground instruction to a diverse population of clients from the United States and abroad. We are a FAA Part 61 and 141 flight school and provide flight training for Private Pilot, Instrument, Commercial, and Instructor Students as well as conducting flight reviews, tailwheel, complex, and high performance endorsements. We also do a significant number of scenic flights due to our proximity to the beaches of Maine. We have an immaculate and well-maintained fleet of Skyhawk SP's, an ACA Citabria, a Cessna 182RG Skylane, and a full motion FMX Redbird Advanced Aviation Training Device.

We are located at the Sanford Seacoast Regional Airport in Sanford, Maine. We have a diverse staff of highly experienced flight instructors that come from various aviation backgrounds and are willing to mentor new flight instructors.

Minimum Qualifications: Certified Flight Instructor with Instrument (CFII)

Compensation is industry competitive!

(with as many flying hours as possible!)
